/ AMK

Cutting tool for thick aluminum sheath

/ Use

The AMK tool allows for circular, longitudinal, or helical cuts on the aluminum screens of CONSAC cables. The helical cut enables the screen to be opened without breaking its continuity.

Fixed cutting depth.
Stainless steel rubbing plate.

/ Technical specifications

- Specific tools : Cable tools
- Cable tools : Cable tools
- For network cables : low voltage
- Packaging : Carton box
- Weight (kg) : 1,3
- Length (mm) : 204
- Width (mm) : 87
- Height (mm) : 79
- Max diameter (mm) : 40
- Mini diameter (mm) : 15
- Circular cutting depth (mm) : 1,5
- Longitudinal cutting depth (mm) : 1,5
