/ EGA

HV and EHV cable's outer sheath and shield spreaders

/ Use

The EGA enables the user to get a firm grip on both edges of the outer sheath and to spread them following the longitudinal cut previously made, thus making possible the effortless removal of the outer sheath with its aluminium shield.

/ Advantages

- Robust design
- Easy to get to grips with
- Articulated jaws for a better grip
- Strong leverage arm

/ Technical specifications

- Specific tools : Cable tools
- Cable tools : Cable tools
- For network cables : high voltage
- Packaging : None
- Weight (kg) : 1.3
- Length (mm) : 190
- Width (mm) : 35
- Height (mm) : 20
- Max diameter (mm) : 240
- Mini diameter (mm) : 0
- Tools king : Specific tools
