## / NE21ALU

Winding reel with aluminium cables and earth clamp

### / Use

Reel with integrated clamp for attachment to hexagonal or round ground spike.

The 3 Alu cables, 70mm<sup>2</sup>, 10m long, are connected at one end to the reel's clamp.

The other end is connected to the 3 Nevers conductive poles, enabling short-circuiting and earthing of the overhead HV network.

The Alu cable is connected by a forged, tin-plated DIN 46329 terminal with a 7mm open area on the Nevers pole side.

Watertightness is ensured by a thick adhesive heat-shrink sheath.

### / Advantages

- Allows storage of materials

### / Technical specifications

- Product kind : Accessories
- Cable material : Aluminium
- Cross-section (mm<sup>2</sup>) : 70
- Floor cable lenght (m) : 10.
- Accessory materials : Steel
- Measurement : 520x520x150mm
- Weight (kg) : 10,7
