/ TSF4011CD

TSF type earthing cable, 40mm² section.

/ Standards

- CEI 61230
- CEI 61138

/ Use

Provides copper connection between clamps and vices of portable earthing and short-circuiting devices.

Type TSF: Single-core copper cable with silicone sheath and crimped terminal connection (double crimping),
-40°C to +70°C

/ Technical specifications

- Product kind : Cable
- Short-circuit intensity kA/0.5s : 15
- Short-circuit intensity kA/1s : 10,5
- Ø of ground lug terminal hole : C = Ø10
- Ø of terminal hole on phase(s) side : D = Ø12
- Cable material : Copper
- Cable isolation type : Silicone
- Cross-section (mm²) : 40
- Floor cable lenght (m) : 11
- Weight (kg) : 5,0
