## / LW11-50-117 Holding clamp

## / Standards

- IEC 60832-2

## / Use

The holding clamp is used to prevent the unwinding of a conductor when it has been damaged. It also facilitates the installation of an anchoring, repairing or connecting sleeve, particularly whilst using the sticking method. Body, jaws and ring bolts made of corrosion protected metal.

### / Technical specifications

- Dimensions (mm) : 125x50x47,5mm
- Pole kind : Pole accessories
- Operating voltage (V) : HTA (1 000 V to 50 000 V)
- Accessory weight (kg) : 0,42
- Overall dimensions (Inch) : 8,2x4,1x3,1 in.
- Accessory weights (lbs) : 0,88
- Capacity of clamping section (mm<sup>2</sup>) : 117
