

/ LW04-13
Pentagonal strain link stick

See online
technical sheet

/ Standards

- IEC 60832-1
- ASTM F711

/ Use

Ergonomic grip thanks to its pentagonal shape which is more adapted to the natural shape of the hand. The strain link stick is used as an intermediate insulator to exert tensile forces on a conductor or any appropriated accessories.

/ Areas of activity

-  Electrical distribution
-  Transport

/ Technical specifications

- Product type : Tirant
- Pulling unwinding devices : Pulling devices
- Operating voltage (V) : HTA, HTB
- Ø of tube(s) : 32 mm
- Clamping capacity (mm) : 6 - 19
