/ DM SERIE

Stripping tool for HV and EHV cable's outer sheath and shield

/ Use

The DM SERIE removes the outer sheath as well as the aluminum or lead screen from high-voltage cables by first making a longitudinal cut and then a circular cut.

/ Advantages

- Robust design
- Faster and safer than a knife
- Easy longitudinal and circular cuts

/ Technical specifications

- Specific tools : Cable tools
- Cable tools : Cable tools
- For network cables : high voltage
- Packaging : Case
- Max diameter (mm) : 145
- Mini diameter (mm) : 50
- Tools king : Specific tools

/ Associated products

	Reference	Designation
	EGA	HV and EHV cable's outer sheath and shield spreaders
	EV HTB	HV and EHV cable's outer sheath and shield splitters
	EVP	Lead sheath spreader (LV-MV)
