technical sheet

/ BTA320

/ Standards

- CE compliant

/ Advantages

- Design adopted by our most demanding users.
- Easy-to-reach and ergonomic button: Prominent button for easy gripping with insulating gloves.
- penta-pim-advantage-voltage/detector-leger-for-better-handling

/ Areas of activity

- | | |
|--|--|
|  Electrical distribution |  Substation |

|  Electric mobility | |

/ Technical specifications

- Power type : AC Voltage
- Network frequency (Hz) : 50/60
- Use condition : Indoor, Outdoor
- Battery type : 9V battery (x1)
- Operating voltage min (V) : 50
- Operating voltage max (V) : 500
- Electrode type (mm) : V56
- Color : Black
- Dimensions (mm) : 70X1360
- Weight (kg) : 1.4
- Auto test
- User's Manual : Multilingual
- Packaging : Textil bag
- Minimum temperature of use (C°) : -25
- Maximum temperature of use (C°) : +55
