/ CSC AFI SERIE

Articulated cleats

/ Use

The articulated single cleat is intended for fastening underground cables in an inclined position.

It must be associated to a protective liner.

Available with M12 threading.

/ Advantages

- Simple operation with easy close hinges
- High vertical slip resistance
- Protective cable liner

/ Areas of activity

-  Electrical distribution
-  Production
-  Transport

/ Technical specifications

- **Areas of activity** : Electrical distribution, Production, Transport
- **Cable configuration** : Simple cleat
- **Collar type** : Aluminium
- **Tools king** : Specific tools
- **Cable configuration** : Simple
- **Material** : AS7G06 Aluminium alloy
