## / SFE9460 Remote Area Lighting System

### / Standards

RoHS (Restriction of Hazardous Substances) compliant

### / Use

Lighting for construction sites.

### / Technical specifications

Two swivelling telescopic masts (each extends to nearly 1,80m / 6 feet) and two 360 degree articulated light arrays.

2 heads with 6 LEDs each.

Heads made in polycarbonate/ABS.

Body made in polypropylene.

Mats made in aluminium.

Battery type : 12V rechargeable, sealed.

Battery level indicator : LED display

Autonomy : 7 hours (high power), 40 hours (low power)

Battery charging time : 6 hours.

Colour : yellow.

Model 9460RS : same model with multi-terrain trolley and remote control, please inquire.

### Advantages

Engineered with the Intelligent Control System which calculates and displays current battery life, allows the user to regulate the intensity of the light and choose the desired run time.

No noise nor heat generation.

Easy set-up.

Powerful.

High autonomy.
