Reeler-unreeler with safety thermal circuit breaker - Professional range

/ Standards

EN 61242 - A11 - 1316

/ Technical specifications

Cable reel, professional range, with mono-bloc spool and metallic base Ø 25 mm.

Protection : IP 44.

3 waterproof plugs with valve NF 10 - 16A.

Rotating handle.

Wide diameter spool to avoid overheating.

Cable guide.

H07RNF type HAR 3 x 2,5 mm² cable, length max. 80 m.

Thermal circuit breaker with manual reset for immediate reuse.

Max. power : 3680 W - 16A / winded : 1 300 W under 230 V.

Concerning ref. D105-D25, differential circuit breaker must be placed at 2 meters maximum from the end (differential 30 mA forbidden on the drum). The differential protection avoid to be electrocuted if an electrical leak occurs.

Product reference	Dimensions (mm)	Poids (kg)	Longueur (m)	Description	Protection
D105	330 x 160 x 410	8	40	Enrouleur-dérouleur 40 m	-
