/ Perche coupe câble - TP25

Cable Cutter Stick

/ Standards

- CEI 60855-1
- ASTM F711

/ Use

This cable cutter cuts the finest ligatures up to 100mm² cable conductors as well as the rings of all anchor clamps.

Foam-coated tube manufactured by Penta Fameca, longitudinal dielectric strength 100kV/30cm.

Ø10mm fiberglass control linkage.

Extremely hard blades: they can withstand very long use before needing to be sharpened, which can be easily done using a grinding lathe.

The blades are interchangeable.

Color: white.
