

/ SEF Wire clamps

/ Use

Wire clamps are used for grounding and equipotential bonding of metal trunking to reduce the effects of EMC, interference and for the interconnection of different grounds.
to reduce the effects of EMC, interference and for the interconnection of different grounds.

/ Technical specifications

- Product specificity : Permanent
- Product kind : Accessories
- Field of use (environment) :
- Station office : After electric meter
- After electric meter : Industria
- Accessory materials : Brass

Product reference	Composition	Weight (kg)
SEF95-/2RBM	SF12.7-BM : Serre-fils pour câble de 70 à 75mm ²	0,085
SEF120-/2RBM	SF14.7-BM : Serre-fils pour câble de 120mm ²	0,109
SEF150-/2RBM	SF16.7-BM : Serre-fils pour câble de 150mm ²	0,162
SEF185-/2RBM	SF20.7-BM : Serre-fils pour câble de 185mm ²	0,192
