

/ E41 Unwinding swivel

/ Technical specifications

Swivel with bearing and cover.

Ø 16 and 22 mm swivels are suited to the dimensions of pipes for fibre cables.

Friction is obtained by bronze rings instead of ball bearings.

For Ø 34 and 38 mm swivels friction is obtained using ball bearings.

Product reference	Weight (g)	Length (mm)	Ø	Description	Passage de chape	Rupture
