

**/ C390**  
Pole extractor jack

See online  
technical sheet

**/ Use (old)**

Used at the foot of the pole to apply an upward pull-out force.

**/ Technical specifications (old)**

Crank-operated jack with rising shaft.  
It is equipped with a chain for attachment (e.g. to a post).  
The safety crank is foldable.

### Advantages (old)

- Simple and robust mechanical jack.
- Made of steel, it is very resistant.
