/ M115

Electrician's hammer with Hickory shaft

/ Standards

E 71-010 / EN 71-011

/ Use

Electrician's hammer, light and handy for precise strike.

/ Technical specifications

Electrician's hammer forged steel head, hardened and tempered.

Hickory shaft with double ring :

- 1 protection ring under the head to preserve the shaft from strikes.
- 1 ring on the end of the shaft to rap and adjust pieces.

Advantages

Ideal for heavy-duty line work.
Hard wood shaft made of Hickory for long life.
