Lockout padlock with interchangeable shackle and dating system - keyed alike

/ Use

For lockout procedure following the 5 lockout-tagout steps.

Key system : Keyed Alike

With numbered key system, and tracking. Only a key with a number identical to the padlock allows its opening. The same key can open a set of padlocks with the same number, thus simplifying the management of keys on a site.

/ Technical specifications

- Non-metallic body padlock, with the possibility of 9 interchangeable shackles, to be chosen when ordering.
- Interchangeable shackle system : the shackle is removable and can be switched according to the electrical installation to be locked.
- Shackles available in 2 materials: metal or composite, in 2 heights: 38 or 76 mm, and in 3 diameters: 4.5 mm or 6 mm or 1 mm sheathed cable shackle.
- Built-in thumb wheel dater : Allows you to set the date of the lockout which can no longer be changed when the padlock is locked.
- Key system : Keyed different, each padlock has its unique key, the key can open only one padlock and no others.
- 8 colours available.
- Padlock dimensions without shackle : 54 x 46 x 21 mm
- Padlock weight without shackle and key : 80 g
- Delivered with a mounted shackle (of your choice) + 1 key + 1 set of lockout tags in 6 languages (abrasion and UV resistant) + 1 instruction manual.

/ Table legend

Replace the # in the reference by the required key number (4 digits). For specific key numbers, contact us.
Replace the x in the reference by the required colour code (1 to 8) : orange (1), red (2), blue (3), green (4), yellow (5), brown (6), white (7), black (8).

Advantages

- **Interchangeable shackle system**

This feature allows the quick adaptation of the shackle to the installation to lock out without needing to change the padlock.

We offer 7 different shackles that adapt to all our padlocks:

- Height 36 or 72 mm
- Metal or composite material
- 4.5 mm or 6 mm diameter or ultra-thin Ø 1 mm cable

- **Exclusive dating system**

We have developed a padlock that has a built-in dating wheel function that is exclusive on the market which brings 2 benefits in the field :

- Installation time saving
- Permanent information: the date is impossible to change when the padlock is closed.

- **High security keys**

- Keys combining punches and grooves to high security levels
- Over 1.000.000 possible blade profile variations
- Captive key system: it is impossible to remove the key if the padlock is not locked
- Automatic return cylinder
