/ ISPI

Insulated handle with hand guard

/ Use

Made of insulating material resistant to 17 kV.
Post diameter up to Ø24mm.
Steel anvil Ø40mm.
Center-to-center distance between two protective guards: 130mm.
Guard profile limits "rolling effect".
Ø6mm hole for a wrist strap.

/ Advantages

- Help with setting ground stakes or markers

/ Areas of activity

-  Electrical distribution
-  Civil security
-  Transport

/ Technical specifications

- Product kind : Accessories
- Operating voltage (V) : BT (50 V to 1000 V)
- Measurement : Ø130x160mm
- Weight (kg) : 0,54
