/ DCAP148

Stripping connector for low voltage aerial cables

/ Use

The DCAP148 allows for easy and quick stripping of the ends of overhead cables (sheathed bridge) with a cross-section of 148 mm² over a length of 55 or 160 mm.

This reference includes only the connector, order the body separately (see accessories).

/ Technical specifications

- Specific tools : Cable tools
- Cable tools : Cable tools
- For network cables : BT
- Packaging : Carton box
- Length (mm) : 75
- Width (mm) : 45
- Height (mm) : 45
- Max diameter (mm) : 21
- Mini diameter (mm) : 19
- Section (mm²) : 148
- Tools king : Specific tools
- Product universe : Work
- Penta marque : PENTA ESP
- Weight (g) : 95
