

/ SAE200
Earthing clamp

See online technical sheet

/ Standards

- CEI 61230

/ Use

The SAE200 is an earthing and short-circuiting clamp for flat and cylindrical conductors. It can be fitted with different end fittings to facilitate its use in various configurations. It is designed to accept TF and TFK type grounding cables, terminal diameter 12.

/ Areas of activity

-  Electrical distribution
-  Civil security
-  Transport

/ Technical specifications

- **Product kind** : Clamps
- **Clamp material** : Aluminium
- **Clamp tightening (mm)** : Barre plate : jusqu'à 100mm Barre verticale : 30x100mm Barre horizontale : 60x100mm Barre cylindrique : Ø10 à 70mm
- **Conductor type** : Round, Flat
- **Operating voltage (V)** : HTB
- **Short-circuit intensity kA/1s** : 31,5
- **Weight (kg)** : 2,2
