

/ CIO6CEI

This strand is made by high tenacity monofilament polypropylene fibers.

See online technical sheet

/ Standards

- IEC 62192

/ Use

This model is a high-quality 3-strand rope, ready for tasks requiring maximum insulation in dry and damp environments, outdoors and in underground applications: high-voltage or near-line work, power lines, fiber optics, etc.

/ Advantages

- Robust
- Slight
- No water uptake
- Good resistance to UV exposure
- Flotability
- Excellent dielectric properties
- Additive treatment

/ Technical specifications

- Product kind : Rope
- Color : Yellow
- Accessory materials : Polypropylene
- Weight (kg) : 0,02 Kg/m
- Breaking load (Kg) : 516
- Charge de rupture (daN) : 506
