**/ LW03-02**  
Pentagonal clampstick

**/ Standards**

- CEI 60855-1
- ASTM F711
- IEC 60832-1
- ASTM F1825

**/ Use**

Ergonomic grip thanks to its pentagonal shape which is more adapted to the natural shape of the hand. The clampstick is the most universal tool used to install and remove personal protective grounding clamps, to install plastic and rubber cover-up equipment, etc. Pole diameter equivalent to 32mm (1 1/4"). Pentagonal insulating tube, fiberglass over the foam core. Control rod is also made of insulating material. High-performance plastic pole head with integrated and replaceable hook.

**/ Advantages**

- Comfortable handling
- Lighter
- More rigid in flexion
- A solution for all tensions
- High mechanical strength

**/ Areas of activity**

-  Electrical distribution
-  Transport

## / Technical specifications

- Pole kind : Fixed
- Work type : Live working
- Pipe diameter (mm) : 32
- Operating voltage (V) : HTA, HTB
- Pipe kind : Pentagonal
- Color : Red
- Rod diameter (mm) : 10
- Rod diameter (inch) : 2/5"
- Pipe diameter (inch) : 1"1/4

## / Accessories

	Reference	Designation
	49638299	Suspension hook
	Kit réparation perche à crochet (PCT)	Hook pole repair kit

## / Associated products

	Reference	Designation
	LW14-05	Product cleaning
	LW14-10	Stick hanger
	TC53	Insulated silicone-coated cloth
	LW11-01	Universal adapter for clampstick
