## / DMSR SERIE

Stripping tool for HV and EHV cable's outer sheath and shield

### / Use

The DMSR SERIE enables the user to remove the outer sheath and the aluminium/lead shield on HV and EHV cable by successively performing a longitudinal and circular cut.

With an embedded mechanical dial gauge the user scores the aluminium shield without cutting through it.

### / Advantages

- Audible detection of the screen
- Precise adjustment of the cutting depth
- Switching from longitudinal to circular cutting without removing the tool from the cable

## / Technical specifications

- Specific tools : Cable tools
  - Cable tools : Cable tools
  - For network cables : HTB
  - Packaging : Case
  - Max diameter (mm) : 160
  - Mini diameter (mm) : 40
  - Tools king : Specific tools
  - Product universe : Work
- Penta marque : PENTA ESP
