/ R-VISOR

/ Standards

- IEC 61243-1: VOLTAGE DETECTORS CAPACITIVE TYPE TO BE USED FOR VOLTAGES EXCEEDING 1 kV A.C
- CE compliant

/ Advantages

- Design adopted by our most demanding users.

/ Areas of activity

- | | |
|--|--|
|  Electrical distribution |  Substation |
|  Industry |  Transport |
|  Electric mobility | |

/ Technical specifications

- Power type : Alternating power
- Network frequency (Hz) : 50/60
- Condition of use : Inside, Outside
- Humidity (Max) (%) : 96
- Battery type : 9V battery (x1)
- Operating voltage min (V) : 3
- Operating voltage max (V) : 66
- Connector type : Universal (U)
- Electrode type (mm) : V56
- Removable connector
- Color : Yellow
- Measurement (mm) : 58
- Auto test
- Notice : Multilingual
- Packaging : Plastic box
