1.5m Screw Type Earth Rod with Single Split Connector

## / Standards

- ENA-41-21

## / Use

1.5m Screw Type Earth Rod x 17.2mm diameter copper-clad steel core, with stainless steel sliding tommy bar for screwing into the ground. A bronze screw profile casting is pinned to the Earth Rod for strength and provides an excellent conductive path to Earth.

Earth Rod Length : 1.5m  
Split Con. Screw Length : 90mm  
Handle Tommy Bar Length : 250mm

Earth rods come pre-fitted with split connectors, available in two variations; single split connector for nest applications & double split connectors to allow daisy-chaining.

## / Advantages

- Solid construction to give extended service
- Lasting resistance to corrosion
- High tensile strength
- Copper clad for low resistance

## / Areas of activity

 Electrical distribution

## / Technical specifications

- **Product specificity** : Temporary
- **Product kind** : Earthing equipment/kits
- **Features** : Single Split Connector
