/ SFE487 - SFE488

Electrical plug lockouts

/ Use

Surrounds the electrical plug and prevents accidental reconnection.
Outward/inward rotation for easier application & storage

/ Technical specifications

High-visibility permanent safety labels (English, French, and Spanish)
Tough, lightweight, dielectric thermoplastic bodies withstand chemicals ; perform effectively in extreme conditions (temperature range -46°C to $+177^{\circ}\text{C}$).
Delivered without padlock.

Advantages

Unique, patent-pending rotation design allows for easier installation in confined space applications.

Product reference	Weight (g)	Dimensions (mm)	Description
SFE487	90	110 x 111 x 70	Verrouillage pour prise 120-240 V
SFE488	140	190 x 130 x 90	Verrouillage pour prise de grande taille 240-550 V
