/ GS38 21

Single head ring spanner ATEX II

/ Standards

EN 74400 / ISO 691 / ISO 1711-1 / ISO 3318 / ISO 10104

/ Use

Provides a secure locking. Its shape facilitates work in the most confined places.
Its inclination enables an obstacle to be negotiated, thanks to the thickness of the head.

/ Technical specifications

Ring offset at 15°.
Other dimensions available on request.
