technical sheet

/ Dispositif fixe

Fixed earthing rod for high busbars in HTB source substations

/ Use

The definitive solution to grounding problems in high-rise installations up to 12 m in height and with very high short-circuit currents.

/ Areas of activity

Industry

/ Technical specifications

- Product kind : Dispositif
- Operating voltage (V) : HTB (> 50 000 V)
- Field of use (environment) :
- Station office : After electric meter
- After electric meter : Industria
- Short-circuit intensity kA/0.5s : 80
- Composition : 1 canne de MALT, 1 manchon de contact de terre, 1 tube de protection, 1 support de base, 1 perche de manoeuvre
- Weight (kg) : 18
