## / MR50

Rolling earth device for cables unreeling

## / Standards

- CEI 61230

## / Use

This equipment is used to unwind overhead electrical cables.

Equipped with 2 upper pulleys and 1 lower pulley with adjustable pressure, to always ensure effective contact when unwinding the cable.

The rear of the unit can accommodate TFK-type earth cables fitted with Ø10mm connectors, mounted with an M10 stainless steel screw.

## / Advantages

- High clamping capacity
- Ensures effective contact with the cable

## / Areas of activity

-  Electrical distribution
-  Civil security
-  Transport

## / Technical specifications

- Product kind : Clamps
  - Clamp material : Aluminium
  - Clamp tightening (mm) : Ø5 à 50mm
  - Conductor type : Round
  - Operating voltage (V) : BT (50 V to 1000 V), HTA (1 000 V to 50 000 V), HTB (> 50 000 V)
  - Field of use (environment) :
  - Short-circuit intensity kA/1s : 25
  - Measurement : 500x450x250mm
- Weight (kg) : 5
