## / E09 9KG

ABC dry powder fire extinguisher, capacity 9 kg

## / Standards

Certified to the Pressure Equipment Directive PED 97/23/EC, to the Marine Equipment Directive MED 96/98/EC and CEN EN3.

## / Use

Suitable for all fires (except metal fires).

May be used on live electrical network with nominal voltage below 1000V AC.

Fire classes : A43 - B233 - C

## / Technical specifications

Stored pressure, multi-purpose dry powder fire extinguisher with pressure gauge :

- Body : 190 mm diameter, deep drawn mild steel cylinder, MIG welding externally painted with polyester resin, signal red to RAL 3000.
- Valve : Lever operated with nickel plated brass body. All external parts are protected against corrosion.
- Propellant : The propellant gas is nitrogen. A small percentage of helium is added, to facilitate electronic leak detection.
- Extinguishing agent : ABC multipurpose dry powder. All parts in contact with the extinguishing agent are compatible with the same.
- Hose : Reinforced rubber hose with pressure connections, complete with nozzle.
- Bracket : Mild steel, zinc-plated wall bracket suitable for vertical mounting.

Operating temperature range : -30°C +60°C

Fire classes : A43 - B233 - C
