

**/ BM15 et MJ15**  
Analog 5kV insulation tester

See online  
technical sheet

**/ Use**

They are very simple to use and provide a quick and accurate reading of insulation resistance. This Product is used by : electrical contractors, maintenance engineers, telecommunications engineers, gas and water utilities, railway companies, cable manufacturers, mining companies.

**/ Technical specifications**

- Four test voltages : 500V, 1kV, 2,5kV and 5 kV
- Voltage range measurement to 20G $\Omega$
- BM15 : battery powered. MJ15 : hand cranked generator plus batteries.
- Voltage range to 600 V indicates auto discharge
- Pass/fail overlays for rapid testing
- Delivered with leads and carrying bag

### Advantages

A bezel allows a scale plate overlay to be added with pass/fail bands for go/no go testing. This is particularly useful for less experienced users and enables a rapid decision to be made.

Product reference	Alimentation	Poids (kg)
BM15	Battery powered	1,2
MJ15	Hand cranked generator plus batteries	1,6
