

/ T410

Wire rope winch 1.6 t or 3.2 t

See online
technical sheet

/ Use

This winch can be used for both lifting and pulling operations.
It is recommended for work requiring a high level of force on long pulls.

/ Technical specifications

Cable winch with no length limit.
Delivered with 20m steel cable with hook.

Advantages

- Operates with a single lever.
- Robust and light winch that can be put into operation quickly.
