/ D85NM
Traction dynamometer

/ Use

Traction dynamometer for pre-assembled cables for regulating tensioned cable networks.
Extremely robust and reliable instrument, all-weather instrument.

/ Technical specifications

Graduation in decanewton
Accuracy ($\pm 0.6\%$) full scale
Waterproof (IP65)
Made from special, cold resistant steel approved for low temperature operation (-20°C)
Occasional overload : 100 % of the nominal value
Static load safety factor 5:1
Fully pressure tight, and each instrument is pressure tested.
