Strap Kit for LV and MV spliced ladders

/ **Use**

The strap kit is designed to be fitted on ESE120, ESE210, ESE300, EI120, EI210 and EI300 type spliced ladders.

/ **Technical specifications**

The kit includes the following :

- a short strap with a hook, 300 mm long
- a long strap with a ratchet load binder, 1200 mm long

The straps are always placed above the rung located at the level of the cradle.

Supplied in a transparent nylon bag.
