/ MS13 205

Alicate aislado con bocas semi-redondas acodadas 45°

/ Normas

EN 60900 / CEI 60900 / ISO 5743 / ISO 5744 / ISO 5745

/ Uso

These pliers make it easy to bend electrical wire.
Suitable for work requiring a good grip and precision cutting.

/ Características

Induction forge treatment of the cutting edges, giving jaws a long life.
Edge hardness: 60 HRC.
Browned steel finish for high anticorrosion protection thanks to a series of 5 baths.
Axial cut edges.
Jaws with ribbing on the inside for a good hold.

/ Table legend

Tolerancia general sobre la longitud total de la herramienta: +/5mm sobre el lado nominal.

Ventajas

- Insulating reinforcements at the ends of arms for protection from impacts.
- Gripping surface with soft ribbing (to not damage the cables).
- High-performance chromium-vanadium steel.
- Improved access to the working area thanks to the nose angle.
