Système de consignation de vanne par retrait de la poignée

Voir la fiche technique en ligne

/ Utilisation

Patented innovative design eliminates the risk of valve reactivation with removal of the handle
Simple remove and store handle and covers the valve stem for secure lockout
Universal fit-effectively lock out all valves from 10 to 100 mm.
Works in virtually all valve installations - metal and PVC valves, insulated pipes, pipes mounted close to a wall or ceiling and valves with tight access due to proximity to other valves or pipes.

/ Caractéristiques

Constructed of durable PVC polyester fabric and HDPE plastic
Performs effectively to withstand corrosive environments and operates in extreme conditions (temperature range: -40°C to 121°C).
Includes write-on erasable labels in English, French & Spanish

Plus produit

Easy to use - simple to apply with an intuitive wrapping strap and locking mechanism
Lightweight, flexible device is easily carried to the job and then folded for compact storage in safety toolboxes
