

## / SFE468L

Système de consignation de vanne par retrait de la poignée

Voir la fiche  
technique en ligne

## / Utilisation

Patented innovative design eliminates the risk of valve reactivation with removal of the handle

Simple remove and store handle and covers the valve stem for secure lockout

Universal fit-effectively lock out all valves from 10 to 100 mm.

Works in virtually all valve installations - metal and PVC valves, insulated pipes, pipes mounted close to a wall or ceiling and valves with tight access due to proximity to other valves or pipes.

## / Caractéristiques

Constructed of durable PVC polyester fabric and HDPE plastic

Performs effectively to withstand corrosive environments and operates in extreme conditions (temperature range: -40°C to 121°C).

Includes write-on erasable labels in English, French & Spanish

### Plus produit

Easy to use - simple to apply with an intuitive wrapping strap and locking mechanism  
Lightweight, flexible device is easily carried to the job and then folded for compact storage in safety toolboxes
