LV Circuit breaker lockout

Çevrimiçi veri
sayfasına bakın

/ Use

Locks out most miniature ISO/DIN circuit-breakers throughout the world.
Is placed on the toggle of the breaker. Used to interrupt power at source.
Available for single and multi-pole breakers. Works with all padlocks and lockout hasps.

Advantages

The mini circuit breaker lockout is simple to use, quick to apply.

Product reference	Tanımlama
SFES2390	Pour disjoncteurs à interrupteur de 11 mm ou moins
SFES2391	Pour disjoncteurs à interrupteur de plus de 11 mm
