

/ GS150CSP
Fully coated offset pipe wrench

/ Standards

NF E 74400

/ Use

Pliers designed to block tube pipes and protective tubes.

/ Technical specifications

Opening capacity : 20 to 67 mm.

Advantages

The shape of the jaw makes it possible to tighten all square or hexagonal nuts, union fittings, tightening nuts, valves, etc.
The jaws are smooth for working on chrome-plated nuts.
Thin jaws to reach confined areas.
